

## TOOK MESSAGE TO GARCIA

Major Andrew S. Rowan Placed on the Retired List of the Army After 32 Years' Service.

(Herald Special.)

Washington, D. C., Dec. 1.—The United States army lost one of its bravest and most conspicuous officers today when Major Andrew S. Rowan, who lately has been on duty at Fort Douglas, Utah, was placed on the retired list after more than thirty-two years' service.

Major Rowan is known popularly all over the land as the "man who took the message to Garcia." He was a first lieutenant in the Nineteenth Infantry when his great opportunity came during the war with Spain. Necessity arising from the dispatching of a trustworthy messenger to General Calixto Garcia to ascertain whether the Cuban army could co-operate with the army of the United States, Lieut. Rowan was selected by Gen. Miles. Garcia was somewhere in the interior of Cuba, surrounded on all sides by the Spanish forces, and the trip consequently was one fraught with great danger.

Rowan made his way to Kingston, Jamaica, thence overland to the north coast of that island, where he slipped away in a sail boat for the south shore of Cuba, landing between Guantanamo and Santiago. He made his way to the interior of the island and found Gen. Garcia in the neighborhood of Manzanillo. Part of the time Rowan had passed as a Spaniard and part of the time as a Cuban. Delivering his message, he started to return, well aware that if he had been captured he would have been hanged like Nathan Hale and Major Andre.

tomorrow, Jacksonville is already filling up with Methodist preachers and laymen.

Today has been given over to examinations by the standing committees of the undergraduate members of the conference. The great number of the young men have taken the prescribed course at the summer school of theology at Georgetown, or by correspondence from Vanderbilt University. The new Methodist church, which was opened in September by the Rev. Geo. S. Sexton, is a beautiful structure and arranged according to the best modern ideas for a working church. The pastor, W. W. Watts, is receiving the congratulations of his brethren on the success of his efforts to provide Jacksonville Methodism with adequate quarters for the large congregation.

Jacksonville is the seat of the Alexander Collegiate Institute, a preparatory school for young men and women. The institute has a fine, commodious building, and the attendance this year is ahead of previous records.

The board of missions has an important meeting scheduled for tonight.

One of the matters of vital interest to be considered by this board is to immigrant stations at Galveston, to which A. E. Rector was appointed recently, after several years as pastor of the First German Methodist church in Houston.

### TO REOCCUPY FORT BROWN.

United States Troops Will Again Be Placed at Brownsville.

(Herald Special.)

San Antonio, Texas, Dec. 1.—It is understood in local army circles that Fort Brown at Brownsville, the scene of the famous raid and the cause of the hottest controversies that ever disturbed the United States government, will, in a very short time, be reoccupied by the American troops. The burned buildings will be replaced by more modern quarters and enlarged to accommodate at least a battalion.

While Fort Brown would have considerable strategic value in operations against Mexico, it is stated that this is not the direct reason for its reoccupation, the Panama Canal being assigned as the immediate cause.

Fort Brown figured extensively as a military objective during the civil war and a number of small engagements took place in its vicinity. Being favorably situated for imports from Europe and Mexico, the Confederacy endeavored to make it an important base of supplies, but did not succeed in carrying out this plan.

### TEXAS NEWS NOTES.

The state penitentiary board met at Austin and considered different phases of the report of the investigating committee of the legislature.

## QUEEN OF ENGLAND 65

Greetings Poured In From All Over the World and Numerous Presents Were Received.

(Herald Special.)

London, Dec. 1.—The sixty-fifth birthday of Queen Alexandra was celebrated today with the usual heartiness throughout the kingdom, by artillery salutes, the ringing of church bells, and the display of flags. Her majesty spent the day at Sandringham, surrounded by an unusually large gathering of the royal family. Greetings poured in from all parts of the world and numerous handsome presents were received from the king and other members of the royal family and from relatives among the reigning families on the continent.

The queen is reported to be in better general health than she has been for a long time, thanks to her long visit the past summer in Norway and Denmark. In future her duties during the London season are to be lightened. There is talk of cutting down the number of courts and other state functions next year, while the Princess of Wales and the Duchess of Connaught will undertake many duties that have been carried out by the queen in the past.

Queen Alexandra was born in Copenhagen on December 1, 1844, the eldest of the late King of Denmark's three daughters. She married the Prince of Wales, now King Edward VII, of England, in King George's Chapel, Windsor, March 10, 1863, and counts six children and nine grandchildren.

### DOUBLE PRIMARY TALK.

Waco May Adopt This Plan With City Ticket in the Spring.

Waco, Texas, Nov. 30.—There is talk of a double primary next spring in determining democratic municipal candidates, owing to the fact that it looks like there will be several aspirants for some of the places.

The democratic primary has served a good purpose here, keeping out much of the corruption incident to the negro's voting in the old primaries, and as good men have been chosen to lead the movement it is held to have accomplished results in behalf of cleaner politics.

### WEATHER FORECAST.

Published By Authority of the Secretary of Agriculture.

For Palestine and vicinity: Partly cloudy weather tonight and Thursday.

Minimum temperature, 50. Maximum temperature, 68.

### Weather Conditions.

An area of low pressure, central over Kansas, extends from Canada to the gulf. It has caused rain, or snow in Texas, the Mississippi valley and in most of the Rocky mountain states. An area of high pressure covers the lake region and the Atlantic states, and the barometer is relatively high over the Pacific states. Cloudy weather prevails over Eastern Texas, while it is clear and cool in the western portion of the state.

### Ralston-Chase Wedding.

(Herald Special.) Washington, D. C., Dec. 1.—The first of the December weddings in capital society was solemnized today.

when Miss Marie Louise Chase, daughter of Mrs. Constantine Chase, became the bride of Lieut. Robert R. Ralston, U. S. A. The bride was attended by Miss Edna Taylor of New London, Conn., and Captain William A. Mitchell, now stationed at West Point, acted as best man. Many persons prominent in Washington society were present at the wedding and at the reception which followed.

### REFLECTIONS OF A BACHELOR.

Money can get you into trouble, and lack of it will keep you there.

A man is willing to guess about his business, but he wants to predict the weather.

The more pain a girl can suffer from her shoes the more joy it can give her because her instep is so high.

When a man begins to praise you for the way you do anything he's getting ready to ask a favor of you.

No woman has the sense of humor to think there is anything queer about walking through snowdrifts with her neck in furs and her feet in dancing slippers and openwork silk stockings.—New York Press.

### A Fable.

Once a farmer had 1,800 bushels of wheat which he sold, not to a single grain merchant, but to 1,800 different dealers, a bushel each. A few of them paid in cash, but far the greater number said it was not convenient then; they would pay later. A few months later the man's bank account ran low. "How is this?" he said. "My 1,800 bushels of grain should have kept me in affluence until another crop is raised, but I have parted with the grain and have instead only a vast number of accounts so small and scattered that I cannot get around and collect fast enough to pay expenses." So he posted up a public notice and asked all who owed him to pay quickly. But few came. The rest said: "Mine is only a small matter, and I will go and pay one of these days, forgetting that though each account was small, when all were put together they meant a large sum to the man. Things went on thus. The man got to feeling so bad that he fell out of bed and awoke, and running to his grainery found his 1,800 bushels of wheat still there. He had only been dreaming.

Moral—The next day the man went to the publisher of his paper and said: "Here, sir, is the pay for your paper, and when next year's subscription is due you can depend on me to pay promptly. I stood in the position of an editor last night, and I know how it feels with one's honestly earned money scattered all over the country in small accounts.—Tafford News.

Draw your own moral.

## MODEL OF THE GYROSCOPE CAR THAT CAUSED SENSATION IN ENGLAND.

Louis Brennan, inventor of the Brennan torpedo, has at last proved that his gyroscopic car, which he has been working on for several years, is practical. Not long ago Mr. Brennan completed a car forty feet long and tried it out in London. Forty persons were carried safely up and down a straight single rail track and round a curved track at high speed, the car balancing itself on the monorail with the grace of a tight rope performer. The principle of the invention is the same as that which keeps a spinning top from falling on its side. The inventor has obtained patents on the device here and in several foreign countries.

## WEDS BEAUTIFUL GIRL

E. M. Chamberlain of Washington and Miss Vera Moses United in Marriage in New York Today.

(Herald Special.)

New York, Dec. 1.—None of the long list of notable weddings that have taken place in fashionable St. Thomas's church ever attracted more attention than the ceremony performed there at noon today which made Miss Vera MacFarland Moses, whose father is a multi-millionaire, the bride of Edward MacFarland Moses, of Washington, D. C.

The white satin and tulle and orange blossoms with which the beautiful bride was arrayed were unseen by her husband, although she leaned proudly on him arm. The childish prattle of the two little flower girls

was heard by him, but their happy faces, their baskets of flowers, counted for nothing.

For Mr. Chamberlain, who comes of an old Virginia family, is totally blind.

The marriage ceremony was performed by the rector, the Rev. Dr. Ernest M. Stires. The bride was attended by Miss Helen Melbourne Meek of Virginia as maid of honor. Mr. Chamberlain had his brother, Justin Morrill Chamberlain of Washington, for best man, and another brother, Capt. Paul E. Chamberlain of the United States marine corps, among the ushers. The ceremony of the church was followed by a breakfast at the Hotel Savoy, the bride's parents' home, and after a short residence.
